January

The BARKA Foundation **BURKINA FASO**

This project empowers women by breaking the silence around menstruation, and provides them with a sustainable, cost-effective menstrual solution ideal for low-income, water-stressed countries like Burkina Faso.

Speak Up For The Poor **BANGLADESH**

The purpose of this project is to reduce the incidence of child marriage, exploitation, and abuse in Bangladesh by providing education, resources, support, and inspiration for vulnerable girls in grades 6 to 12.

February

March

Women Advocacy Project **ZIMBABWE**

Through the launch of a soap-making project in two marginalized communities in Zimbabwe, young girls will earn income, increase confidence, build team spirit, and avoid child marriage.

Noora Health **INDIA**

This project reduces preventable newborn health complications by training new mothers and family caregivers in critical health behaviors such as exclusive breastfeeding, skin-to-skin thermal care, umbilical cord care, and postpartum maternal diet.

April

May

TERREWODE **UGANDA**

This project supports Ugandan women who have suffered obstetric fistula through a program that includes psychosocial counseling, health, nutrition, and safe motherhood education, family planning education and services, and social reintegration support.

Creamos **GUATEMALA**

Through the introduction of an Intimate Partner Violence and Gender-based Violence program for women living in the Guatemala City garbage dump community, this project addresses the structural gender inequalities that underlie the high rates of intimate partner violence and femicide in Guatemala.
